"Community Lessons, Global Learning" is a partnership between the International HIV/AIDS Alliance and Glaxo Wellcome's Positive Action programme. This first report shares lessons about responding to HIV/AIDS between communities, countries and continents. Although the primary focus of the document is on community responses to HIV/AIDS, Section 5 of the report discusses gender, sexuality and sexual health. The "Community Lessons, Global Learning" programme - and, therefore, this report - draws lessons from the Alliance's experience in supporting HIV/AIDS prevention and care strategies which deals with the provision of information and raising awareness about the epidemic.
