This document is a product of the meeting on power in sexual relationships, convened in Washington, DC, 1-2 March 2001, and was a joint effort of the Population Council's New York and DC offices and the USAID Interagency Gender Working Group's Men and Reproductive Health Sub-committee. Eight previously conducted field-based interventions have provided valuable information and an overwhelming message highlighted in the dialogue: - many men and women in less-developed countries are ready to discuss the issue of inequality in sexual relationships and believe changes are in order.
