

## **HIV/AIDS Continues to Wreak Havoc in Sub-Saharan Africa**

---

Sub-Saharan Africa contains only 10 percent of the world's population, but is home to 60 percent of all people living with HIV, the virus that causes AIDS. And, among young people aged 15 to 24 years, an estimated 4.6 percent of women and 1.7 percent of men are living with HIV this year. On the eve of World AIDS Day, the continent's situation continues to be bleak, with infection rates generally showing few signs of letting up. [Read more...](#)
