

Building A 'Molecular' Condom, Scientists Aim To Stop HIV

Warning: DOMDocument::loadHTML(): htmlParseEntityRef: expecting ';' in Entity, line: 3 in /home/gender/public_html/plugins/content/image/emogrifier.php on line 63 The idea is to create a long-acting "molecular condom" that could empower women and save lives in the world's poorest countries where HIV is rampant, and where other methods of preventing disease are not readily available or used.
