This resource pack authored by Debbie Budlender provides relevant knowledge to facilitate mainstreaming gender-responsive approaches into reproductive health programmes, and the inclusion of specific aspects of gender inequality and disadvantage into national policy frameworks. It focuses primarily on health, particularly reproductive health; on HIV/AIDS; and on violence against women as it relates to health services. Although it is not solely focused on HIV/AIDS, this resource packs addresses the budgeting, financing, and aid issues of HIV/AIDS through a gender lense.
